CONSUMPTION CAN BE CURED.—
THA.—The wender and doubt feit by the medical faculty what Dr. Hastings procise med the curability of pulmonary consumption by the use of Naphthana remedial agent, has now, after eight years of trial, settled down into a deep consumption by the consumption of the consump new, after eight years of trial, settled down into a deep con-retien that there are few or no cases in which consump-tion cannot be cured by Dr. HASTINGS'S COMPOUND SYRUP OF NAPHTHA. In every case in which it has been tried in England or the United States it has been fol-lewed by immediate relief and ultimate cure. In the Blem-heim Pree Dispensary, under the charge of Dr. Hastings during five years that the Naphtha has been in use, there has not been a signific death from disease of the lungs, while has not been a single death from disease of the lungs, while previous y patients had died almost every week. In incipistages of consumption the effect of the Naphtha Syrup is almost miraculeus, and a cure effected in an incredibly she almost miraculeus, and a cure enected in an increasing short space of time. In the more advanced stages, and even a the third or last dreadful division of this hitherto incura-ble disease its effect is equally wonderful. This period is marked by the expectoration of the tuberclessin cheesethe particles mixed with pus, mucus, blood, etc , and most generally accompanied with severe diarrhea. On admin-stering the Naphtan Syrap the formation of the tubercles is almost instantly arrested, the foreign matter thrown off, the tubercles already formed are destroyed, and the breathing immediately becomes easier, and the patient on the third night, after first taking the Syrup, is often able to enjoy aquiet night's rest, a thing unknown for weeks previ-

Punch, in the following, wants to

put the new reaping machine to a novel use: Mr. Punch presents his compliments to Mr. Hussey, and hearing that his reaping machine is the best for corn-cuting, will feel obliged by one being sent immediately, as he wishes to cut his own corns. Mr. Punch would not have troubled the celebrated American Hussey, but his own wife, Judy, is such a lazy Hussy that she will not perform the operation required.

THE CHEROKEE INDIANS .- The St. Louis Daily Union gives the following account of the progress of this tribe in practical civilization:

The attempt to civilize and improve has been more successful among the Cherokees than any of the other nations. They have gone on steadily immore successful among the Cherokees than any of the other nations. They have gone on steadily improving, until they can compare favorably with many of the civilized nations. Their progress in all that pertains to intellectual improvement, as well as in all that concerns their government and business transactions, is truly surprising. But a few years ago they were wild and ignorant as any of the other tribes, and now they have made considerable advance in learning—print their own paper—invented their swn alphabet by which to print—conduct all the different branches of commerce, agriculture, &c., on the plan adopted among us—have their advertisements, schools, societies, &c., formed after the model set them by the people to whom they look for example. But in strict honesty they afford an example worthy of imitation by those who consider themselves as belonging to a superior race.—As an example of the honesty of this people, we may state that when the payment was made to the "old settlers," the first use they made of any part of it was te pay every cent they owed, even though this payment should absorb every cent of their "per capita." The traders, who had been among them, had trusted them for the goods they required in expectation of their receiving money from the Government in payment for their lands, and when each "old settler" received his share, which amounted to \$245.49, although many of them were in poverty, and had never received money, they had been taught that it was their strict duty to discharge all their obligations, and they obeyed the instructions they had received to the letter. received to the letter.

COMMERCIAL MATTERS.

The Coal trade, by water communication to the Pennsylvania coal mines, is nearly over for the season. The Lehigh Navigation Company brought down, for the week ending on Saturday last, only about 2.744 tuns for the season, 989.291 tuns being 272,314 tuns more than to the same time last year. The Reading Railway commences its fiscal year on the 1st of December. It brought down, for the week ending on Thursday last, 35,036 tuns, and since the 1st, 63,936 tuns. There is a good home demand for Coal, and prices are well supported.

The Cheshire Railroad Company have resolved to create and issue 5,500 shares of new stock at \$100 P share, giving to such of the present stockholders as may subscribe to it, the privilege of converting three shares of old stock into prefered six & cent. stock for every new share taken; or in other words, the holders of three shares of old stock, other words, the holders of three shares of old stock, by paying \$100 for a new share. The object of the new issue is to pay all the debts of the company, bonded and floating, which mature within eight years from this time. It is said that a dividend of the net earnings of the past year will be paid in January, to such holders of the old stock only as

The Seaboard and Roanake Railroad has been completed to Weldon. The road is 80 miles in length between Portsmouth and Weldon.

The net earnings of the Fall River Road for the year ending Nov. 30, were \$99,794 86. The balance of assets over liabilities on hand was \$95," 607 63, of which \$56,229 42 was considered available and applicable to dividends. The remainder, \$38, 778 21, was invested in wood, iron, and other materials of daily use. A semi-annual dividend of \$4 50 per share was declared, payable on the 1st Monday of January next

BARK CYANE, from Richmond, Va., for New-Orleans, (before put into Charleston in distress.) was taken into the floating dock on the 10th inst., and upon impaction, her keed was found to be almost entirely ground of, on many places quite to the garboand streak, and in one place where she no doubt struck on a projecting piece of rock, the plank is completely worn through, and has cut probably a half meh into the solid timber. Had this piece of rock, the taken the vessel a few inches further aft instead of just taken the vessel a few inches further aft instead of just abreast the timber, a breach would without doubt have been mide that would have sunk the burs. The planking he several places on the stationard side has been worn very thin, and her escape must be considered almost miraculous.

PROOKLYN TAXES for 1851.—TaxPayers are hereby notified that the TAXES of 1864
will be ready for collection on the FIRST DAY of DECEMBER next.
On all Taxes not paid before the 1st day of January next,
1 per cent will be charged.
Tay-Payers are particularly requested to call and get
their bills, and pay before the end of the month, in order
to avoid the crowd and confusion experienced immediately
before the admittion of the per centage.
Taxes will be received between the hours of 9 and 2
s'clock only. Pankable money only received.

1. P. S. BRIANT, Collector of Taxes and
Assessments, Room No. 2, City Hall.
